

INVITATION

TICK TACK at
Basel Social Club

Office

June 14–20, 2026

Basel

For its fifth edition — occupying a vacant multi-story office building — Basel Social Club hosts LAN, a site-specific installation by Brennan Wojtyla (2001, Florida).

LAN transforms the office floor into a fully operational, ten-person Local Area Network, built for one purpose: playing Counter-Strike: Source (2004).

Utility becomes aesthetic. Infrastructure becomes artwork. The office floor becomes a social arena.

Join us. Come spectate. Come play.
